

RAYMOND RECORDER

VOL. 46—No. 42

THURSDAY, JULY 7th, 1949

Funeral Service For The Late George Court

Funeral services for the late George E. Court, aged 80 years, who passed away in the Raymond Hospital after a short illness, was held in the 2nd Ward Chapel, Monday, July 4th, with Bishop Rulon H. Dahl of the 3rd Ward in charge.

Opening song by the choir was "O My Father" and the opening prayer was by President L.L. Palmer.

Mrs. Elizabeth King, the first speaker told of old experiences of pioneer days and spoke of the prominent place George Court took in this community. Among her remarks she made mention of his keen mind and memory and of the help he had given her in compiling the History of Raymond.

A quartette "Face To Face" was rendered by Ira Melbride, Paul Reid Orvin Hicken and Deb Oler.

President James H. Walker paid tribute to the family and spoke of the love and happiness that has characterized this family in the past years. The best things of life are not purchased with money and Mr. Court was rich in those things and had worked and earned them. Mr. Walker said the deceased had earned his place in the Kingdom of God. President Walker also reviewed the life of the deceased in this community and spoke on the Resurrection and life and death as a plan of God.

A vocal duet was given by Elizabeth King and Fanny Walker.

On behalf of the family Bishop Dahl expressed appreciation of the many kindnesses of friends of the family and spoke briefly of the life of service of the deceased and his family.

A vocal duet "The Deepening Trials" was sung by Emma Dahl and Ruth Salomon. Closing prayer was given by L. D. King.

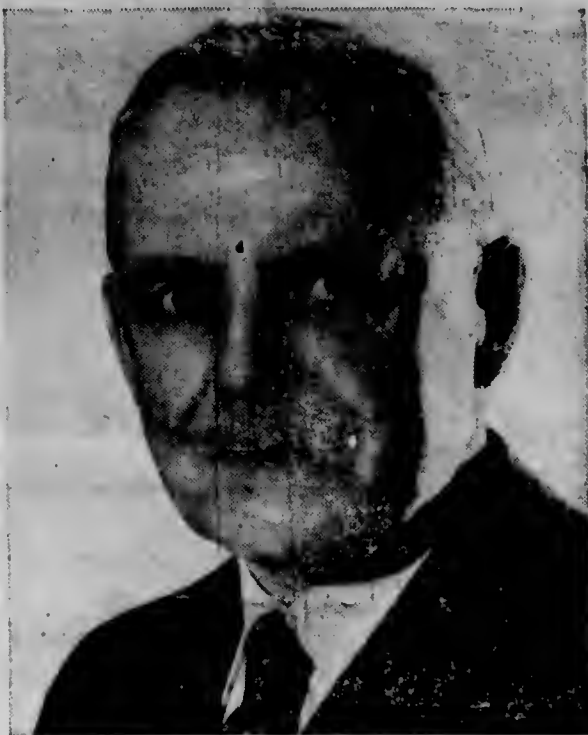

Pall bearers were D. A. Bennett, C. W. Lamb, Walter Zobel, M. T. King, T. W. Meldrum and P. W. Cope.

Interment was in the Temple Hill Cemetery with Christensen Bros. in charge of funeral arrangements.

The large attendance of relative and friends and the mass of floral tributes bespoke the love and esteem held for this pioneer and his family.

George E. Court was prominent in community and church activities all his life. He was the first choir leader in the Raymond Ward. He was director of dramatics and many of his productions are well remembered. He was a member of the Town Council for many years and also was Mayor of the Town of Raymond. He has been returning officer in Raymond for many years. He had the true pioneer spirit and was quick to help his neighbors and lend a helping hand wherever needed. He was the father of 22 children, the largest family in the district. He was also a carpenter and helped build many of Raymond's first homes. He was also manager of the Raymond Opera House in years past. He was very active right up to the time of his sudden illness, going every day to his farm and doing his work. His passing is felt in this community as a distinct loss.

We extend our sympathy with that of the community to the family at this time.

LOUIS ST. LAURENT, Prime Minister of Canada

... whose Liberal Party swept in the Dominion Election with 193 seats out of 262.

Successful Stampede Staged Here

Raymond's 18th Annual Stampede and Race Meet, held as usual on July 1st and 2nd was again this year a big success. Close to six thousand people paid admission on the first day to see the Stampede and also to take in the midway of Royal Canadian Shows of Vancouver.

Following the Stampede a big dance was held both nights on Raymond's Open Air Pavilion and also a Barn Dance was staged at Graham's Barn east of town.

Some delay was caused both days by cowboys who were competing in both the Raymond Stampede and the Macleod show and considerable juggling was necessary due to waiting for riders, in order to keep the show going.

An Excellent public address system was used this year with Bus Mordock of Lethbridge doing the announcing. Clark Lund was arena director. Following is a synopsis of day and final money:

JULY 1
ROPING—Cam Kyle, Ronald Hoyt, Frank Manyfingers, Jack Morton.
DECORATING—Alex Hunt, Bud Van Cleve, Elmo Still, Gordon Robinson.
WILD HORSE RACE—Dale Still, Luke Smalleyes, John Maggs.
MAD SCRAMBLE—Dale Still, Bud Van Cleve, George Stripedwolf.
WILD COW MILKING—Gordon Earl, Bert Still, Geo. Stripedwolf.
JULY 2nd
BAREBACK BRONC—Gordon Earl, Duane Jessop, Bert Still, Mike Kulig.
STEER RIDING—Jesse Jones, Gordon Robinson, Lindon Litten, Gordon Heggie.
SADDLE BRONC—Rex French, Duffy Stewart, Bud VanCleave, with Elmo Still and Jesse Jones splitting 3 & 4.
ROPING—George Richmond, Floyd Peters, Harwood Potter, Ron Hoyt.
DECORATING—Alex Hunt, Leo Red Crow, Pete Manyfingers, H. Manderville.
WILD HORSE RACE—Gordon Heggie, John Maggs, Dale Still.
MAD SCRAMBLE—Dale Still, Bud Van Cleve, Bert Still.
WILD COW MILKING—Bert Maggs, Gordon Heggie, Stephen Fox.
FINALS, JULY 2nd
SADDLE BRONC—Rex French, Hillspring, Duffy Stewart, Montana, Elwood Tolton, Taber and John Maggs Lethbridge.
ROPING—Ron Hoyt, Frank Manyfingers, Floyd Peters, Cam Kyle.
DECORATING—Alex Hunt, Leo Red Crow, Harold Manderville, Bud VanCleave.
RACES—JULY 1st
PONY RACE—Jensen, Jensen, Hall.
5/8 MILE OPEN—Mehew, Leavitt, Threepersons.
DOMINION DAY DERBY—Mehew, Mehew, Threepersons.
QUARTER MILE—Sabey, Heggie, Jensen.

PONY RACE—2 Depew, 3 Jensen.
MILE AND ONE EIGHTH—Threepersons, Mehew, Leavitt.
INDIAN RACE—Threepersons, Tom Soup, Alfred Blood.
ROMAN RACE—Sabey, Depew.

DR. ASPER WILL GIVE CONCERT HERE WEDNESDAY

Dr. Frank Asper, distinguished organist from the Salt Lake Mormon Tabernacle, will give an organ recital in Raymond July 13, next Wednesday, at the Stake House. Dr. Asper, of world wide fame, will play on the newly installed pipe organ in the Stake House.

Tickets are now on sale and will be handled by the Bishopric in each ward. You should not miss this opportunity to hear this famed artist on the Taylor Stokes own organ.

LEGION NOTES

Through the untiring efforts of the Building Committee, good work on the part of the carpenters and plumbers, general support and co-operation

of the Legionnaires and the public, the construction work on the Memorial second half of June that it became possible to use the Hall during the two day Stampede and Dominion Day celebrations on July 1st and 2nd. The Legion is proud of its Fraternal Organization—the Ladies Auxiliary for the excellent manner in which the lunch service was organized and successfully carried out in the Memorial Hall during the two days of the Public Event. The gratitude and sincere appreciation of the work done by the Star members of the Ladies Auxiliary is hereby expressed by the Legion Executive.

To mark the opening of the Legion Hall on July 1st, the Legionnaires assembled at 9:30 a.m. in front of the Hall to attend the flag raising ceremony and to hear Comrade F. R.

Fourth Annual Track Meet Results

Raymond's Fourth Annual Track Meet was staged here last June 11, and although nearly a month late in reporting it we feel it should be put before you.

Due to an exceedingly heavy entry some delay was caused through having to run heats in all events.

There were contestants of high calibre in all classes, provincial records were broken by Don Pettie of Calgary who ran the 100 ynd dash. Mens Open Senior, in 9.8 seconds. Pettie was a member of last years Canadian Olympic team and ran in England. Ernie McCullough also from Calgary was near the Alberta record Mens Open, 880 yard run. McCullough is Captain of the Notre Dame University Track Team.

Gordon Dickson of Claresholm tied the Provincial Record, Boys Under 19 One Mile Run in 148" and Ken Hicken of Raymond also vaulted 9' 4 3/4" in the Boys under 16 which is thought to be a new Provincial record. Lyle Garbe of Calgary ran the 440 yard run, Boys under 19 in 52.5" also near the Provincial Record. Jim Lavery of Calgary in the Mens Open 440 yard run of 51.6" is very outstanding as was Petties 220 yards in 22.3" Rudy Audenaert of Raymond won the 5 mile run for the 4th year. Barbara Renfrew of Coaldale was an outstanding performer in the Ladies Open, winning every event.

Much credit is due all contestants for their fine efforts and the Committee extends their thanks, also a big thank you to those few loyal local men who spent all day on the grounds to help

THE BRITISH POSTAGE STAMP

In the United Kingdom seven thousand and million stamps are issued annually. Face value vary between a half penny and one pound. Absolute uniformity of issued quality is the General Post Office's insurance against forgery; and the quality standard of this production job may be judged by the high rarity value given by Philatelists to imperfect examples. A

block of 4d stamps, on which some were not perforated on three sides, was auctioned recently for 42 pounds. A strip of twelve sixpennies printed on double paper is offered currently for 500 pounds. Here stamps printed in continuous form for making rolls are being dried in an air-conditioned room.

CARD OF THANKS

Our heartfelt thanks to our many friends who called—for their faith and prayers—for the beautiful floral tributes and all the many kindnesses extended during our recent bereavement. The Bee Hive Girls, the High School students and the younger members of the Public School will be gratefully remembered always.

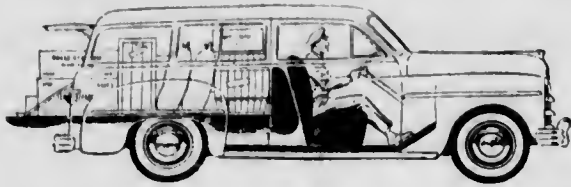

The P. H. Redd Family

LOCAL BUSINESS CHANGES HANDS

Grant Fawns, who for the past year has been employed at Ebierts has now taken over the business and will operate it under the name of "Grants" Cycle and Sporting Goods. A complete stock of equipment for the sportsman, no matter what sport, will be carried and can be obtained by Grante. The bicycle repair shop will also be maintained along with the sharpening of lawn mowers and skates.

HERE'S THE *Newest* DODGE

**THE ALL-METAL
ALL-PURPOSE
SUBURBAN**

The farmer, suburbanite or merchant will find the Suburban ideal for load hauling. With the rear seat folded forward and the tailboard down, there's a carrying space 7 feet 5 inches long and an extreme inside body width of 5 feet. It will do anything a light delivery unit will do—and it's instantly convertible into a six-passenger sedan.

YOU'LL FIND a wide range of uses for this new ALL-METAL Dodge Suburban.

Open the wide doors and you'll be amazed at the seating capacity, and the space provided for luggage and vacation equipment in this newest Dodge. There's plenty of head, leg and elbow room in both front and rear seats. Its lively 97 h.p. engine operates with traditional Dodge dependability and economy... gives you ample power for hill climbing and heavy going off the beaten track. Low pressure tires, Safety Rim wheels, luxury springing and powerful hydraulic brakes, assure you a safe, smooth ride.

With the rear seat folded flush with the floor (an easy one-hand operation) the new Dodge Suburban can "double" as a roomy panel delivery vehicle. You can easily load it with any type of merchandise without a worry... its all-metal interior is hard to damage... the long wearing vinyl fabric upholstery is safely and easily washable.

Inspect this great new addition to the famous Dodge line at your Dodge DeSoto dealer's showroom. You'll find it just the car you've always wanted—at a price you are willing to pay.

See the beautiful new Dodge models; the Distinctive DeSoto with "Tip-Toe" gear shift; and the famous, dependable Dodge "Job-Rated" trucks, at—

20,000 ROAD SIGNS ON PROGRAM THIS YEAR.

Alberta highways will be marked for directional purposes with 15,000 new signs this year, according to information received from the public works department by the Alberta Motor Association.

In addition, 2,500 road marking signs also will be located on main and secondary highways.

The signs are painted with a new luminous paint which shows up during night driving. This type of paint has been found very effective in improving safety features on highways and reducing the number of accidents.

By June 10, the public works department had erected 6,400 new signs on main and secondary roads and it planned to install another 12,000 immediately.

At a midsummer meeting in Calgary last June, members of the provincial board of the Alberta Motor Association expressed favor for more extensive road marking in the province. This need was stressed. It was decided that further action should be left in the hands of the provincial A.M.A. president and executive.

With an increased flow of tourist traffic this year, there are pressing demands for an adequate standard system of highway signs being in operation.

The patients entering Raymonds Municipal Hospital will in future be given a tuberculin test for discovery of tuberculosis, it was announced today by hospital officials.

This service is provided free by the Alberta Tuberculosis Association financed by the annual Christmas Seal Sale, and the hospital is co-operating by administering the tests and keeping the records, and also by undertaking to give a chest X-ray to all the positive reactors, at a cost of only \$2.00 to the patient.

The tuberculin test does not indicate that a person has tuberculosis. It merely shows whether or not he has ever picked up even a slight infection. Most people who react to the tuberculin test never develop tuberculosis. The test is given in an extremely simple and convenient way, namely by a small patch very much like a band-aid, with a small square of gauze, which holds tuberculin serum. This is placed against the skin.

Imperial Oil Announces PRICE REDUCTION ON DOMESTIC HEATING OILS and DIESEL FUELS IN Manitoba, Saskatchewan, Alberta

Home owners, farmers and ranchers in the three Prairie provinces will immediately benefit from the new price reduction announced by Imperial Oil. For those who have been holding off buying oil heating and oil cooking equipment, this price reduction makes such an investment a wise and attractive one. New comfort and efficiency follow with the installation of oil burning equipment.

Farmers and ranchers too will experience new convenience by installing oil burning cooking stoves, space heaters, hot water heaters, stock trough heaters, chicken brooders and other oil burning equipment.

Your oil burner and space heater dealers can provide you with installations and new equipment. Ample supplies of heating oils and diesel fuels are assured by Imperial Oil Limited.

Plymouth Announces New Suburban Model

Pictured here is the new Plymouth De Luxe All-Metal Suburban. It features a spacious interior that can be adjusted to suit various types of loads. With both seats in position it provides comfortable seating for 6 passengers and a cargo space of 40 cubic feet. If more space is required for delivery use, the driver can fold away the rear seat and the Suburban then provides room for three passengers and has a cargo space of over 84 cubic feet.

ALBERTA CAR TOTAL

HEADS FOR 120,000
Heading for the 120,000 mark, passenger car licenses issued by the provincial secretary's department since the present license year opened April 1, total 116,000, according to a re-

port received by the Alberta Motor Association. The aggregate at this time a year ago was 102,000. The licenses issued for two and a half months of the present license year establish a new record for the province. They are well ahead of the

total of 114,676 for the whole of the 1948-49 license year which ended March 31 last. For the remainder of this year, the license total is certain to climb. This is indicated by the steady increase in car sales and the greater volume of vehicle traffic reported in all sections of the province. Passenger car licenses are not the

only one to show record gains. The number of drivers licenses also is soaring and probably will hit new levels this year. Since April 1, the number of drivers licenses taken out totals 88,500 compared with 163,000 in the initial period of 1948. For the whole 1947-48 license year, the total was 261,011 such licenses.

LANCASHIRE LASSES SHOW FASHIONS IN LONDON

Lancashire mannequins showing the latest fashions in Lancashire cotton fabrics at the Portico Hall, Paddington, London. The parade was held under the auspices of the Paddington Borough Council to show the public what British industry is doing to help the export drive. This picture shows the Lancashire lassies arriving at Portico Hall wearing one of the striking summer outfits.

NEW THAMES WATER BUSES FOR FESTIVAL OF BRITAIN

The first of the new and larger Thames water buses especially designed for service during the Festival of Britain 1951 Exhibition made its trial run recently. The vessel is 80 feet long, carries 250 passengers, most of them under cover, and has a speed of 12 knots. This picture shows the new, larger-type water bus "Perfect" leaving Charing Cross Pier, London, at the start of her trial run.

During and since the war, the CBC Overseas Unit in London has developed into a busy branch of the CBC, providing Canadian radio with a listening post on Europe and much of the world. In this photograph Andrew Cowan, the CBC's European representative is seen with (left to right) secretaries Joan Kimber, and Eleanor Swallow and program assistant Daphne Burrows. Frequently heard from, but not seen, is Matthew Halton, the CBC's European correspondent.

Trash Cover Important

The trash cover or stubble mulch was developed in the Metchin-Nobleford area of southern Alberta as a protection against soil drifting. Thousands of acres of soil were "blown down" by this method in the "windy thirties". During this dry period the farmers of southern Alberta became expert at producing and maintaining a trash cover. With the advent of better moisture conditions, wind erosion at first temporarily ceased to be the number one problem on most prairie farms. Unfortunately, however, a more insidious form of erosion, water erosion, took its place. The solution of the water erosion problem is essentially the same as that of wind erosion. Because of this fact, we find that the trash cover, once found only in the dry areas, has become a common farm practice in the moister areas of the Prairie Provinces.

Acts in Many Ways. The trash cover acts in several ways to prevent erosion. It protects the soil from pounding rain. It slows down run-off, allowing water to soak into the ground. The trash anchored in the surface provides channels through which water percolates into the soil. The result is less run-off, more moisture in the soil, and less erosion.

Types of Machines. The one-way disc, duckfoot cultivator, rod weeder and the various blade machines, are all efficient trash cover implements. The blades work best under the drier prairie conditions, the one-way and duckfoot under moister conditions.

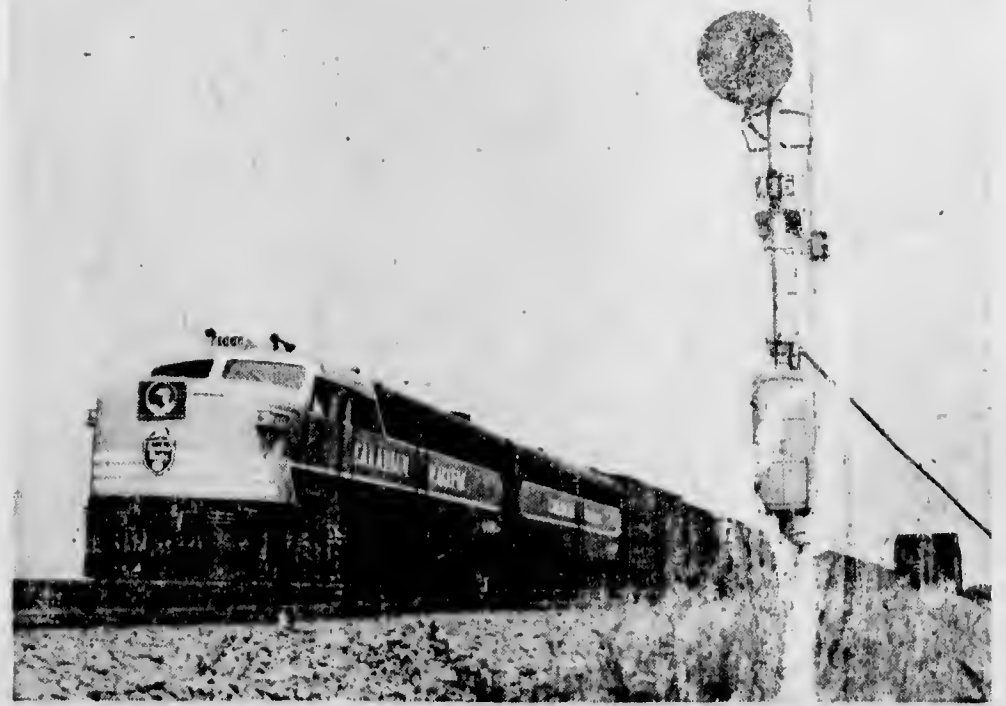

Depth and Speed of Cultivation. To secure a good trash cover, cultivation must be shallow, just below the root crowns is best. Speed of travel must be slow, 3 to 3 1/2 miles per hour gives best results.

The preservation of our prairie soils is Western Canada's number one conservation problem. The effective use of the stubble mulch or trash cover by western farmers is putting soil conservation into action. Remember, "If you are good to the land, it will be good to you".

Skinny men, women gain 5, 10, 15 lbs.

Get New Pop, Vim, Vigor

What a thrill! Body limbs all out; only hollows left up; seek no longer scrawny; body loose, healthy, plump; look like a champion. They thank the special vigor-building, flesh-building, tone, Orlax, its tonic, stimulates, invigorates, iron, vitamin B₁, calcium, enriches blood, improves appetite and digestion so food gives you more strength and nourishment; put flesh on bare bones. Don't fear getting too fat; stop when you've gained the 5, 10, 15 or 20 lbs. you need for normal weight. Pats little, new "get acquainted" size only 50c. Try famous Orlax Tonic Tablets for new vigor and added pounds, this very day. At all drugists.

Just over the St. Lawrence River on its way from Montreal to New-Port, Vt., is diesel engine 4000, first of 23 diesel units ordered by the Canadian Pacific for their main line operation from Montreal to Wells River, Vt. The locomotive shown above is made up of two units, each above the boiler, for freight service. The passenger locomotives will be made up of two units to complete dieselization of the 171 mile stretch of the C.P.R. lines through the Green Mountains.

King Bros. Circus with Joe Mix Is Coming Soon

Get Ready!
The Circus is coming!
The King Bros. Show with Joe Mix will exhibit in Raymond, Saturday, July 23.

To a special occasion, the King Bros. transport this great organization from city to city. Travelling with the circus are 600 employees in addition to 30 advance men. Twenty two tents covering 12 acres of ground house the transient city in the daytime. The circus has its own doctor, lawyer, dentist, U.S. Postman, detectives, blacksmith, carpenters and, in fact every artisan in the average city. The famous King Bros. menagerie, declared to be the finest and most complete travelling zoo in the world is a part of the show. Many new rare and costly specimens of the wild animal kingdom have been gathered from all parts of the globe. Tigers, gnus, vipers, lions, tigers, camels, dromedaries, zebras, leopards, panthers, yaks, emus, jaguars, clouds, seals and a herd of elephants are but a part of the travelling university of natural history.

Great stars from foreign countries the respective champions in their lines, participate in the gigantic display of athletic numbers. The trained horse displays are headed by John O'Brien, acknowledged to be the greatest trainer of all time.

Joe Mix, the screens famous western star with a congress of cowboys, cowgirls, Indians, Cossacks and rough riders will be seen in a spectacular revival of the old west.

Among the acrobats will be the Caudillo Sisters, champions of Mexico. The petite and charming Christine Sisters, intrepid bareback

riders on the Antipodes to thrill and amaze you. From Europe will be the amazing flying Cham-bertys, international aerialists and the famous isthian family, equilibrist, headed by Billy Burke. Fred Wenzel and Frank Cain will furnish fun for the little folks.

Performances will be given at 2 and 8 p.m. Doors will be opened an hour earlier to permit an inspection of the zoo.

Alberta Wheat Pool Patronage

The Alberta Wheat Pool hereby advises its members that it intends to operate for the crop year 1949-50 on a patronage dividend basis, in keeping with the co-operative principles on which the Pool was formed. The following notice is published in compliance with the provisions of the Income Tax Act:—

As required by the Income Tax Act, our members are hereby advised that in accordance with the terms and conditions and within the times and limitations contained in the said Act, it is our intention to pay a patronage dividend in proportion to patronage out of the revenues of the 1949-50 crop year, or out of such other funds as may be permitted by the said Act, and we hereby hold out the prospect of the payment of a patronage dividend to you accordingly.

Alberta Wheat Pool

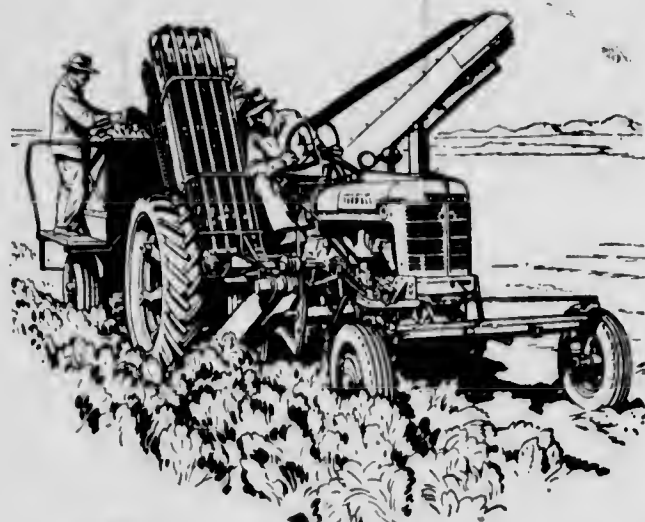

LOUGHEED BUILDING, CALGARY

Alexander Brott, assistant conductor of the Montreal Symphony Orchestra and leader of the McGill String Quartet, is touring Europe this summer to introduce Canadian music to European audiences. He will conduct all-Canadian programs in the United Kingdom, the Netherlands, Norway and Sweden, and will give a violin recital at the Glyndebourne Festival in Sussex.

Walter Kaufmann, conductor of the newly-organized Winnipeg Symphony Orchestra, who is also becoming known to Canadians as a composer. Among recent performances of his work was one he conducted himself on CBC Wednesday Night last February. The program included his Symphony No. 5 and "Main Street" both composed since his arrival in Canada from Europe in September, 1947. Born in Katisbad, Mr. Kauf-

Once Over and IT'S ALL OVER

with a McCormick-Deering Beet Harvester

Here's a real time and labor saver . . . the McCormick-Deering HM-1 Beet Harvester for Farmall H, M and MD Tractors.

In one continuous operation, this machine tops, lifts, cleans and loads the beets into a special two-wheel cart to complete the harvest in a "once over and it's all over" operation.

With the HM-1, you can harvest 5 to 6 tons of beets in an hour. You don't have to worry about weather or field conditions because this machine does a good job when it's not easy to harvest beets by other methods.

Ask us for details about this labor-saving, time-saving machine.

During the winter and spring the weekday on the CBC Trans-Canada Happy Gang has been broadcasting network. They are now off for a program of music and comedy each holiday but will be back in the fall

EXPERIMENTAL FARM WEEKLY LETTER

WINTER WHEAT IMPROVEMENT

Winter wheat improvement was the subject of discussion when plant breeders, cereal chemists, cereal pathologists, physiologists, field his bandy men and entomologists from various Experimental Stations and Research Laboratories met recently at Lethbridge. A comprehensive program of research was outlined to study winter wheat problems and to breed improved varieties of this crop. Much of this work will be conducted in the research laboratories at Lethbridge.

A study of the root rot diseases of winter wheat will be made with the object of finding varieties resistant to this disease and in developing cultural practices to lessen the severity of the damage. Cultural practices such as the date of seeding in relation to soil moisture content and seeding methods will be given further study particularly in areas where winter wheat is difficult to grow. It is hoped to find varieties that are resistant to sawfly and aphid attack.

In the breeding program attempts will be made to produce improved varieties of both hard red wheat and

soft white wheat. In the hard red wheat program, emphasis will be placed on greater winter hardiness, improved disease and insect resistance, non-shattering, earliness and satisfactory bread-making quality. These wheats are designed to be grown on dry land in the open plains area. In the soft wheat program emphasis will be placed on strength of straw, disease resistance and satisfactory pasty flour properties. These wheats should prove suitable for irrigated land and parts of the foothill area.

In some cases it will take many years to satisfactorily solve certain of these problems while in other cases results may be obtained in the near future. As results become available they will be passed on to the farmers. Investigations will be continued actively until winter wheat production is on a sound, profitable and permanent basis in this area.

Soil Drifting—Emergency Control Methods

Soil drifting remains one of the "windy" thirdest in taking place in many areas of the Prairie Provinces this spring. Thousands of acres which were farmed in strips during the dry years, and on which a trash cover was kept with meticulous care, are now being farmed in large blocks with little or no attempt made to provide a protective cover. The important immediate question is, of course, "What can be done this year to reduce the loss of soil from drifting fields?"

Fuel Points Important. Soil drifting usually starts from small patches or focal points in a field. If action is taken quickly, spreading a load of coarse manure or straw on these particular points or centres may prevent severe drifting on whole fields. A load of straw, if properly spread, will cover a surprisingly large area. A thin layer of straw on a field is very effective in keeping the soil where it belongs.

Plowing furrows about a foot apart at right angles to the prevailing wind is quite effective in stopping drifting.

Cultivating and One-Way Disc Listers. The duckfoot cultivator and the one-way disc can be readily adapted to the job of listing. To transform a cultivator into a lister, first remove all duckfoot shovels. Lister shovels should then be attached to the proper shanks so that they are spaced 3½ to 4 feet apart. The other shanks should then be tied back or the springs released so that they will not drag in the soil.

Adapting the one-way to listing is done by removing a sufficient number of discs so that those remaining are spaced 3½ to 4 feet apart.

Emergency methods in soil drifting control are valuable. They can prevent serious damage on unprotected fields. A carefully planned, permanent soil drifting control program, however, is much better. Plan today to save soil tomorrow.

Heard frequently on CBC network programs from Winnipeg is Therese Denise, soprano of St. Boniface, Manitoba. Miss Denise was first heard on CBC more than ten years ago, but went to France to study in 1939. Soon after her arrival, the war broke out. She was unable to escape the occupation, and remained in France and Italy throughout the war years. She returned to Winnipeg 2 years ago, and has since been a frequent performer on CBC programs. She was one of the soloists in the recent Winnipeg performance of Gabriel Faure's Requiem. Miss Denise will be heard in recital again.

PLYMOUTH GIVES YOU MORE!
*MORE FOR YOUR MONEY...
AND MORE THAT'S NEW!*

Plymouth gives you value where it counts!

More Value where Comfort Counts! Plymouth's longer 118 1/2" wheelbase (up to 8 1/2" longer than competitive cars) allows better seating of passengers and greater comfort.

More Value where Safety Counts! Plymouth's chair height seats (up to 3" higher than competitive cars) provide more restful comfort and safety, over the hood vision.

More Value where Performance Counts! The renowned, simplified L-head Plymouth engine has fewer moving parts to wear, reduces maintenance costs. Provides all of 97 hp and has higher compression ratio for best performance at all speeds.

Here's the new Plymouth... a car that likes to be compared for VALUE!

In the new Plymouth, Engineering magic greets you right from the start. You don't grope for a starter button. You don't pull on a choke. You simply turn the ignition key—and the engine starts! In the more powerful 97 horsepower engine, there are many Chrysler-Engineered features, such as—4-ring pistons for better compression, fuel and oil economy—a floating oil intake and oil filter for longer, more efficient engine life. Your dealer will show you many more.

Plymouth doors are wide at the bottom to allow easy entrance. Interiors are roomy and restful, with plenty of headroom. Seats are chair-height, wider and deeper from front to back. Windshield and rear windows are 1 1/2" larger in area, better, safer vision.

Get the most for your automobile dollar. Compare Plymouth on all counts! When you do, you'll agree that feature for feature — dollar for dollar — the great new Plymouth is Canada's best price-buy!

*Whitewall Tires and Rear Fender Stone Shields are extra equipment.

QUICK DEATH TO INSECT PESTS

STANCO LIVESTOCK SPRAY and 25% Imperial DDT are economical and effective. With these sprays you can end the losses caused by flies and other insect pests.

STANCO is a repellent spray ready to use. Just fill your sprayer and you can treat your cattle, horses and hogs to comfortable days and restful nights. No more terrorizing by flies, no more stampeding. Stanco gives 24-hour protection, is non-injurious to your livestock and does not stain. It more than pays for itself by coming down milk and flesh losses caused by insect pests.

25% IMPERIAL DDT CONCENTRATE kills flies on contact. It is ideal for use in stables, dairy barns, hog pens and poultry houses. Sprayed on walls and ceilings it ends the fly problem, the menace to health and production. Economical to use, too. For power spraying you only use 1 part concentrate to 125 parts water, or about 2 1/2 table-spoons in a gallon. For hand spraying you double the strength. For walls and ceilings, a gallon of concentrate makes 5 gallons of spray. It does not stain and is sure death to every fly and insect that lights on it.

WORLD'S BIGGEST PLATE GLASS WINDOW

The largest plate glass window in the world, 1,000 feet long and 50 feet high has been erected along one wall

of the great assembly hall where the "Brabazon" Britain's giant airliner is being built at Bristol. As well as housing the "Brabazon" this hangar is being used for servicing the aircraft of British Overseas Airways. The window is built to withstand 80 miles per hour Atlantic gales which sweep up the Bristol channel. A system of double glazing has been used, developed by the Chester (England) firm of Williams and Williams Ltd. The design is tested to stand wind velocities up to 150 miles per hour, and since not patty audio initial or subsequent painting is necessary the upkeep cost is very low. This picture shows one section of the 1000 feet plate glass window of the "Brabazon" hangar at Bristol. An aircraft of British Overseas Airways Corporation is being serviced in the foreground.

Taylor whose address on the significance of the Dominion Day and the role Canadian Armed Forces played in defending the freedom and security of their country during the World Wars, was enjoyed by the Legionnaires and public alike. The speaker also congratulated the Legion on the achievement in erecting the Memorial Hall which commemorates the services of those from Raymond and District who paid the supreme sacrifice.

Following this patriotic event witnessed by a sizeable crowd of cit-

izens, the Legionnaires took part in the morning parade marching behind the excellent Pipers Band of the Lotbridge Army and Navy Club which led the parade.

The marching war veterans were followed by their front representing a "Peace Tower" on wide, but insecure foundation designed to symbolize the present world situation of insecure peace because of uncertain "Red Blocks" and by "Iron Curtain" in its supporting structure.

It is regrettable that the design was evidently not understood, hence no mention in "Air Dispatches" or any other apparent recognition of the float was given by the parade judges or general public.

The Legion Quiz Contest arranged in support of the Memorial Hall was climaxed by the draw made at 4:30 p.m. on Saturday, July 2nd during the second day of the Stampede. Mr. Clark Lund, Arena Director drew the ticket which won the splendid stamped leather saddle for Mr. C. Carlson of Medicine Hat who at the present is employed as a bricklayer by the Canadian Sugar Factories at Raymond. The Legion congratulates the winner on his success in winning the prize and at the same time expresses its appreciation of the excellent job done by the committee which was in charge of the contest. The

The Legion also wishes to convey the gratitude and thanks to the general public for their wholehearted support in this worthy cause.

WALK WITH THEE

I am not dead my darlings
For our spirits never die,
I'm with our kind and loving Father
And His precious Son on high.

There is no pain or sorrow
In this bright and happy home,
I sing and play with angels
Around the Great White Throne.

My friends were once your friends
In that vale of yesterday,
The skies are bright and beautiful
Not gloomy, dull or grey.

It might not be so far away
Until we'll meet again,
The days are but short minutes here
As we work and play and sing.

I'll help our Lord to guide your feet
Along the narrow way,
And as you go along down there
Please don't forget to pray.

He'll rest His hand upon your heart
And dry your falling tears,
If you will only trust in Him
He'll banish all your fears.

Now while the flowers are blooming
And you lay my body to rest,
Do not mourn and weep, my own,
For God knows what is best.

The above poem was composed by Mrs. Oscar Johnson, in memory of the late Grace Peterson.

Alberta's Greatest Hydro-Electric Project is moving right along

"Cats" and bulldozers, men, trucks and dynamite are harnessing a rugged world behind the Three Sisters—famous mountains south of the Calgary-Banff Highway. There lie the Spray Lakes, where Calgary Power Ltd. is building the greatest hydro-electric project in Alberta.

This huge development will cost \$10,200,000. It will take two years to complete. Five dams will be required, 2,400,000 cubic yards of earth and rock will be excavated. Three power plants will be erected. Their combined output will add 89,000 H.P. to the Company's capacity.

Ready to distribute this new power to the farms, industries and homes of Alberta is the Company's 3,500 mile transmission system fanning eastward across the province to the Saskatchewan border, southward to the United States boundary and north to a hundred miles beyond Edmonton.

Today, new vigor for Alberta's development, new soundness for Alberta's progress, new horizons for Alberta's future are being built by Free Enterprise in the valleys and canyons of the Spray. Already, under the impetus of achievement, crews have set a pace which has put construction to date of this huge project days ahead of schedule.
